

A new twist on an old favourite

# Lavette Super 10-Pack

In addition to the standard 25-unit pack of Lavette Super wipes, we now offer a convenient and budget-conscious 10-pack. The smaller packs also take up less space in the storage room, so are especially handy when space is limited.

Those who know and love the Lavette Super know all about its superior cleaning powers. The wipe still has Food Contact Clearance (FCC), making it the ultimate tool in any restaurant or industrial kitchen. It prevents cross-contamination, even when it comes in direct or indirect contact with food.

By rinsing the wipe first, and often, the Lavette Super is even more hygienic and effective against cross-contamination. The Lavette Super's antibacterial properties and quick-drying structure prevent the spread of bacteria, even in the most likely of places.

## A new pack, a new look

In addition to reducing the pack size to accommodate our customers' primary needs, the Lavette Super 10-pack now comes in fresh, modern new packaging. The bright colours and refreshed design are more suited to hold the best wipe on the market, and reflect Chicopee's pride in these amazing wipes.

The new packaging is also designed for sales displays, Cash & Carry points and other locations where retail resellers want to showcase the best of all cleaning cloths.

## No compromise on quality

Of course, the wipe is still available in four colours, to help adhere to HACCP standards for cleaning. But now, budget- and space-conscious managers can elect to purchase fewer wipes at a time. After all, a single Lavette Super wipe lasts through at least 40 washes – so a 10-pack can be stretched a long way. When budget or space are a factor, the less expensive, smaller 10-pack is a simple solution.

Prod. code	Size (cm)	Colour	Content
74530	51 x 36		16 polybags x 10 pcs
